mechanical **baby** scale series

THE RICE LAKE MECHANICAL BEAM BABY SCALE is a safe, reliable tool for the accurate measurement of infants and individuals up to 135 pounds (62 kilograms). Available in either kg or lb/kg designs, this infant scale features an enameled steel body that supports a straightforward and sturdy dual-read die cast beam.

Cradle infants in comfort with the ABS plastic tray that is easy to clean and offers a built-in measuring tape for quick length reference. For fast mechanical measurement, the portable Rice Lake mechanical beam baby scale is a must-have device for busy hospitals, clinics and nurseries.
